## Future Operations and Plans

### Future Operations: (24-96hours)

TF MED will continue to prepare medical supplies for the future distribution to the Navajo Nation.

TF AVN remains postured to provide rapid response in support of TF MED, TF LOG and State senior leaders.

TASK FORCE LOG will continue distribution operations at the point of need ISO the local community. TM PULL is prepared to execute five food bank missions while TM STOCKER is positioned to conduct eleven food bank missions in addition to performing warehouse operations and the stocking at 32 retail locations.

### Future Outlook

The ACS WG continues to coordinate Alternate Care Site (ACS) support to create COVID-19 surge capability outside the traditional hospital footprint. JTF AZ ICW the Army and TF MED will explore training requirements should the National Guard be required to assist in transportation of medical patients. The TF will also research capability and capacity to support fatality management operations if needed.

## Situation

**Number of NG with COVID-19: 3**

**Key State efforts are:** Logistics, transportation, medical analysis, strategic planning, augmentation of staff and liaison to State Emergency Operation Center

**Law Enforcement tasks:** NO

**FEMA Federal/Major Disaster Declaration**

**Requested: 03APR2020**

**Approved: N/A**

## Current Operations

Arizona National Guard continues with Phase 3 Respond efforts. The Arizona National Guard assists state and local partners in providing surge capacity and capability to the State of Arizona's COVID-19 emergency response. Currently 903 National Guard Soldiers and Airmen are assisting across all fifteen counties ISO COVID-19 efforts. ACS planning priority remains with the establishment of St. Luke (PHX), the Walgreens warehouse (FLG) followed by the Tucson Convention Center (TUS) and Fiesta Mall (PHX).

TASK FORCE MED continues to actively monitor the COVID-19 situation across the Navajo Nation coordinating response efforts to mitigate the risk to the tribal population. TF MED continues to coordinate medical response efforts within the Navajo Nation and is preparing a ground LOGPACK of medical supplies to be ready to ship to the Navajo Nation if needed. TF MED ICW the Army continues to explore medical transportation options (FLA) to enable the transportation of low acuity patients from hospitals to ACS recovery sites.

(No/Yes) Law Enforcement tasks: No

FEMA Federal/Major Disaster Declaration

Approved: 26 March 2020

## Current Operations

Illinois has been conducting COVID-19 support operational planning since 13MAR20 and established a Joint Task Force in order to respond to emerging needs. Since then we have assisted in synchronizing Illinois Emergency Management planning groups as well as the Office of Emergency Management Chicago. Current operations include the establishment of 2 Mobile Testing Sites (one in Chicago, one in Bloomington). We have conducted Hotel Site assessments to look at viability of turning them into Alternate Care Facilities. We are currently providing medical support to one Illinois Department of Corrections Facility to monitor and assess inmates. ILNG has additionally provided warehouse management and logistics with the focus on PPE supply and distribution throughout Illinois. We are conducting LNO Operations to highly affected counties, and will be deploying Service Members for intake assistance to hospitals to help them increase capacity. ILNG has also provided personnel to stand up a State Unified Area Command in Chicago in conjunction with IEMA.

## Status of Approvals

## Current Operations

The Indiana National Guard (INNG) is currently building the force while facilitating the activation and augmentation of Command and Control.

Multiple planning cells have been placed at key echelons (Indiana Department of Homeland Security (IDHS), State Department of Health, INNG HQ, etc.) in order to prepare future force packages and response time if unmet needs exists and are requested by the Governor.

Multiple Food Banks have requested support in the packaging and distribution of food. The INNG is currently activating personnel to support this mission along with an additional District C2.

## Future Operations and Plans

- Future Operations: (24-96hours)**
- Further Warehouse augmentation
  - UPAD Advisers to facilitate FUOPS
  - Activation of an additional District C2 node in order to create feasible reporting/tracking mechanisms
  - Patient Transportation (NOT Requested at this time)
    - Force Package being validated

- Future Plans: (96+hours out)**
- Testing Lanes (NOT Requested at this time)
    - Force Package available upon request from IDHS (State Emergency Management Agency)
  - Food Bank Support

## Current Operations

BLUF: The MNNG is assisting the State of Minnesota's response to the COVID19 pandemic by working ISO the Governor and State Agencies, through the Homeland Security Emergency Management Department (HSEM). The MNNG is providing response efforts by assisting in identifying needs and problems, assessing current and projected consequences, advising on response measures and assisting with appropriate, vetted requests for MNNG SCA.

Support tasks include: providing logistical and operational planning team (OPT) members; assisting in identifying alternate site care facilities for expanded medical support capacity; providing communications support; providing logistics and supply request fulfillment for the transfer of essential supply needs to include medical PPE and cots; providing contracting assistance; and providing LNO support to the State Emergency Operations Center (SEOC). Additionally, the MNNG is leveraging its Aviation capabilities to assist in providing air transport for the OPTs conducting RECONS on potential alternate site care facilities across the state.

## Future Operations and Plans

### Future Operations: (24-96hours)

- SEOC LNO Support
- OPT for Alt. Site Care Facility RECONS
- State Warehouse Support (PPE Management)
- SEOC Logistical Planner Support
- Department of Admin. Contracting Support
- SEOC Communications Support

### Future Plans: (96+hours out)

- Continued SEOC and State Agency Support; steady state

## Current Operations

**Facilitating Testing:** NH DHHS is using the Manchester, NH Armory for drive-thru testing – estimated completion is 3 APR, but may be extended.

**Building Capacity:** Increasing hospital surge capacity around the state – currently 1,295 beds in progress or complete with an additional 600+ beds in planning.

**SNS & PPE Supplies:** conducting a warehousing mission for DHHS supplies and a SNS mission for RSS of PPE and other supplies. Possibly expanding these mission sets to include commodities distribution.

**Supporting the State Emergency Operations Center** with a Mission Assignment Coordinator (MAC).

**Cyber Support:** providing cyber-qualified NG members ISO state agencies due to potential threats to critical cyber infrastructure.

**Call Center Support:** providing personnel to staff phones for NH Unemployment Security.

## Future Operations and Plans

**Future Operations: (24-96hours)**

- Continue to support existing mission sets
- Completing surge site set-ups at 18 total surge sites

**Future Plans: (96+hours out)**

- Preparing for commodities distribution
- Planning for possible alternate facilities mission (with USACE)
- Notional missions for rotary airlift support
- Coordinating with EPLO team to coordinate potential Title 10 forces
- JRSOI planning in progress
